Mississippi Resource List

These are health professionals and others with an expressed interest in vestibular disorders. We hope this list provides a useful resource. However, VEDA does not rank the people on the list or make endorsements or non-endorsements.

If you experience severe dizziness or balance problems, the place to start is with your family physician or internist. You will probably need a physical examination to determine if your dizziness is caused by a problem unrelated to the inner ear. If your physician rules out these other causes, you may find this list useful.

Physicians
