Tennessee Resource List

These are health professionals and others with an expressed interest in vestibular disorders. We hope this list provides a useful resource. However, VEDA does not rank the people on the list or make endorsements or non-endorsements. If you experience severe dizziness or balance problems, the place to start is with your family physician or internist. You will probably need a physical examination to determine if your dizziness is caused by a problem unrelated to the inner ear. If your physician rules out these other causes, you may find this list useful.

Physicians

Germantown:

Bruce L. Fetterman, MD, FACS
Otologist, neurotologist
Ear, Hearing, and Balance Disorders
2120 Exeter Rd., Ste. 230
Germantown, TN 38138
